Profile

Tennessee, the gateway to the heart of the Confederacy, is an area rich in sites, buildings, landscapes, and documented sources that tell the stories of the American Civil War and Reconstruction. Geographic location, along with strategic river and rail routes, productive farmlands, and industrial sites made the state a crucial prize fought for by both armies. Every county in Tennessee was affected by the destruction of the land, loss of life, bitter divisions within families and communities, and political and social turmoil of the war years and the following decades. The Tennessee Civil War Heritage Area focuses on the late antebellum period (from ca. 1850), military activity, the home front experience, Reconstruction, and the enduring legacy of this watershed of history.
